Proposal for a
COUNCIL REGULATION (EEC)
amending Council Regulation (EEC) No 3589/82 on common rules for
imports of certain textile products originating in

(submitted to the Council by the Commission)

EXPLANATORY MEMORANDUM

Council Regulation (EEC) N° 3589/82 of 23 December 1982¹ established common rules for imports into the Community of textile products originating in certain non-member countries.

These rules were introduced following the conclusion of bilateral agreements, and are valid until 1986.

Since the entry into force of the Regulation, it has appeared that a number of amendments are desirable in the following areas:

- a number of corrections are needed to improve the text of the Regulation itself;
- a number of corrections are also needed in order to improve the text of Annex I to the Regulation;
- it is necessary to publish the allocation of Community limits among Member States for the years up to and including 1986 and to include a number of new quantitative limits introduced in the course of 1983, and it is therefore necessary to adjust Annex III accordingly.

The attached proposal for a Regulation effecting these amendments is hereby submitted to the Council for adoption as soon as possible.

COUNCIL REGULATION (EEC)

amending Regulation (EEC) No 3589/82 on common rules for imports of certain
textile products originating in third countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

to make certain amendments to Regulation (EEC)
No 3589/82

Having regard to the Treaty establishing the
European Economic Community, and in particular
Article 113 thereof,

HAS ADOPTED THIS REGULATION:

Having regard to the proposal from the Commission,

Article 1

Whereas the Council, by Regulation (EEC)
No 3589/82⁽¹⁾, makes imports of certain textile
products originating in third countries subject to
common rules until 1986;

Regulation (EEC) No 3589/82s hereby amended as
follows:

Whereas certain adjustments have become necessary
since the entry into force of that Regulation;

- 1) In Article 3, paragraph 2 shall
be deleted and paragraphs 3, 4, 5, 6,
7 shall accordingly be renumbered 2,
3, 4, 5, 6 respectively.

Whereas the Community should put these adjustments
into effect; whereas it is necessary for this purpose

2) In Article 4, the following shall be added as paragraph 3:
"the provisions of Article 4, paragraphs 1 and 2, shall apply only to the countries referred to in Annexes XII and XII A."

3) In Article 5, paragraph 2, the first two sentences shall be replaced by the following text:

2. Paragraph 1 shall not apply where the Community quantitative limit established under Article 3 for the products within the category in question originating in the supplier country concerned is less than 2.5 % of total Community imports in 1980 for that category. However, in the case of the countries referred to in Annexes XII, XIIA and XIIB, this level is 1 %.

4) Article 8 shall be replaced by the following text:

Article 8

1. Supplier countries other than the countries listed in Annexes XI, XII, XIIA and XIIB may, after notifying the Commission in advance, utilize the shares allocated to Member States in the following ways:

(a) Advance utilization during any given year of a portion of a share established for the following year shall be authorized for each category of products up to 5 % of the share for the year of actual utilization.

Such advance imports shall be deducted from the corresponding shares established for the following year.

(b) Carry-over of amounts not utilized during any given year to the corresponding share for the following year shall be authorized up to 5 % of the share for the year of actual utilization.

(c) Except for the countries listed in Annex IX, where the relevant percentages in each case

referred to below shall be 3.5 %, transfers of quantities in Group I categories shall be made only as follows:

- transfers from category 1 to categories 2 and 3 shall be authorized up to 5 % of the share established for the category to which the transfer is made,
- transfers between categories 2 and 3 shall be authorized up to 5 % of the share established for the category to which the transfer is made,
- transfers between categories 4, 5, 6, 7 and 8 shall be authorized up to 5 % of the share established for the category to which the transfer is made.

Transfers of quantities into the different categories in Group II or III may be made from any category in Group I, II or III subject to a maximum of 5 % of the share established for the category to which the transfer is made.

The table of equivalence applicable to the abovementioned transfers is given in Annex I.

- (d) The cumulative application of the provisions of points (a), (b) and (c) may not, in the course of any given year, cause a limit established for the category and for the year in question to be exceeded by more than 15 %; however, in the case of categories of products originating in the countries listed in Annex IX, such an excess may not be greater than 11 % for Group I categories and 12.5 % for categories in Group II and III.

2. The country listed in Annex XI may utilize the shares in the ways provided in paragraph 1, except that:

- in the case of points (a) and (b), there shall be no authorization for category 1, and the authorization in respect of category 2 shall be limited to 2.5 %,
- in the case of point (c), transfers to category 2 shall be limited to 2.5 %.

3. The country listed in Annex XII may utilize the shares in the same way as provided in paragraph 1, except that:

- in the case of points (a) and (b), there shall be no authorization for categories 2 and 3 and authorization in respect of all other categories shall be limited to 1 %, except that further authorization to 5 % may be agreed following consultations in accordance with Article 14,

- in the case of point (c), there shall be no transfers to categories 2 and 3 and transfers between categories 4, 5, 6, 7 and 8 shall be limited to 3.5 %,

- in the case of point (d), such excess may not be greater than 10 % for Group I categories and 11 % for categories in Groups II and III.

The same provisions shall apply to the countries listed in Annex XIII A and XII B except that, in the case of points (a) and (b) referred to in the first indent, there shall be no authorisation for categories 1, 2 and 3.

4. In the event of recourse by a supplier country to the provisions of paragraphs 1 to 3, the Commission shall notify the authorities of the Member State concerned, which shall authorize the imports in question in accordance with the double-checking system defined in Annex VI.

5. Where a Member State's share has been increased by the application of paragraphs 1 to 3 above or of Article 9, or where further possibilities for imports into that Member State have been created under Article 9, such increases or further import possibilities shall not be taken into account for the purposes of applying paragraph 1 in the current year or subsequent years.

5) Article 11 shall be replaced by the following text:

Article 11

1. The importation into the Community of textile products listed in Annex I, originating in the supplier countries listed in Annex II and not subject to the Community quantitative limits referred to in Article 3, shall be subject to a system of administrative control.
2. Should imports into the Community of products falling within any given category, referred to in paragraph 1 and originating in one of the supplier countries, exceed, in relation to the preceding calendar year's total imports into the Community of products in the same category, the percentages indicated in the table appearing in Annex XIV such imports may be made subject to quantitative limits under the conditions laid down in this Article. These arrangements may be limited to imports into specific regions of the Community.
3. Should the imports referred to in paragraph 2 into a given region of the Community exceed, in relation to the total quantities calculated for the whole Community according to the percentage specified in paragraph 2, the percentage set for that

region in the table below, such imports may be made subject to quantitative limits in the region in question:

Germany	28.5 %
Benelux	10.5 %
France	18.5 %
Italy	15 %
Denmark	3 %
Ireland	1 %
United Kingdom	23.5 %
Greece	2 %

4. Paragraphs 2 and 3 shall not apply where the percentages specified therein have been reached as a result of a fall in total imports into the Community, and not as a result of an increase in exports of products originating in the supplier country concerned.

5. Where the Commission finds, in accordance with the procedure laid down in Article 15, that the conditions set out in paragraphs 2 and 3 are fulfilled and considers that a given category of products should be made subject to a quantitative limit, with the concurring opinion of the Committee under the procedure in Article 15:

- (a) it shall open consultations with the supplier country concerned in accordance with the procedure specified in Article 14 with a view to reaching an agreement or joint conclusions on a suitable level of limitation for the category of products in question;

- (b) pending a mutually satisfactory solution, the Commission shall, as a general rule, request the supplier country concerned to limit exports of the products in the category concerned to the Community, or to the region or regions of the Community market specified by the Community for a provisional period of three months from the date on which the request for consultations is made. Such provisional limit shall be established at 25 % of the level of imports reached during the calendar year preceding that in which imports exceeded the level resulting from the application of the formula set out in paragraph 2, and gave rise to the request for consultation or 25 % of the level resulting from the application of the formula set out in paragraph 2, whichever is the higher;

Nevertheless, it may, in exceptionally grave circumstances, request the supplier countries listed in Annexes XIII A and XIII B to suspend, at the level indicated by the Commission, and with effect from the date of notification of the request for consultations, their exports of the category of products in question [to the Community or to one or more regions thereof;]

- (c) it may request any of the supplier countries listed in Annexes IX and XII, with effect from the date of notification of the request for consultations and pending a mutually satisfactory solution, to suspend or limit at the level indicated by the Commission its exports of the category of

products in question to the Community or to one or more regions thereof;

- (d) it may, pending the outcome of the requested consultations, apply to the imports of the category of products in question quantitative limits identical to those requested of the supplier country pursuant to points (b) and (c). These measures shall be without prejudice to the definitive arrangements to be made by the Community, taking into account the results of the consultations.

← Measures taken pursuant to this paragraph shall be the subject of a Commission communication published without delay in the *Official Journal of the European Communities*.

6. The consultations with the supplier country concerned which are provided for in paragraph 5 (a) may lead to the conclusion of an arrangement between that country and the Community or the adoption of joint conclusions on the introduction and level of quantitative limits.

Such arrangements or joint conclusions shall stipulate that the quantitative limits agreed be administered in accordance with a double-checking system.

7. Should the parties be unable, in the course of consultations, to reach a satisfactory solution within one month following the opening of consultations and, at the latest, within two months following notification of the request for consultations, the Commission shall have the right to introduce a definitive quantitative limit at an annual level not lower than the level resulting from the application of the formula set out in paragraph 2 or 106 % of the level of imports reached during the calendar year preceding that in which imports exceeded the level resulting from the application of the formula set out in paragraph 2 and gave rise to the request for consultations, whichever is the higher.

In the case of Hungary, the Commission shall however have the right to introduce a quantitative limit at an annual level not lower than the level reached by imports of products falling within the category in question and referred to in the notification of the request for consultations.

In respect of the country listed in Annex XII, the time limits referred to above shall be reduced by half.

8. The arrangements provided for in paragraph 6 shall be concluded, and the measures provided for either in paragraphs 5 and 7, or in the arrangements or joint conclusions referred to in paragraph 6 shall be decided in accordance with the procedure laid down in Article 15.

9. The annual level of the quantitative limits laid down in accordance with paragraphs 5 to 8 may not be less than the level of imports, into the Community or into the region or regions concerned in 1980, of products of the same category and originating in the same supplier country.

10. Where the development of total imports into the Community of a product which is subject to a quantitative limit fixed in accordance with paragraphs 5 to 8 renders it necessary, the annual level of that quantitative limit shall be increased, after consultation with the supplier country in accordance with the procedure laid down in Article 14 to ensure compliance with the conditions set out in paragraphs 2 and 3.

11. The quantitative limits fixed in accordance with paragraphs 6 and 8 shall provide for an annual growth rate determined by mutual agreement with the supplier country concerned in the context of the consultation procedure laid down in Article 14.

12. The quantitative limits established pursuant to paragraphs 5 to 8 shall not apply to products which have already been dispatched to the Community provided that they were shipped from the supplier country in which they originate for export to the Community before the date of notification of the request for consultations.

13. The quantitative limits established pursuant to paragraphs 5 to 8 shall be administered in accordance with Articles 3 and 4 and 6 to 10, save as otherwise provided in accordance with the procedure laid down in Article 15.

6) Article 13 shall be replaced by the following text:

10

Article 13

1. Where, following the enquiries carried out in accordance with the procedures established under Annex V, the Commission notes that the information in its possession constitutes proof that products originating in a supplier country listed in Annex II and subject to the quantitative limits referred to in Article 3 or introduced under Article 11 have been transhipped, re-routed or otherwise imported into the Community through circumvention of such quantitative limits and that there is need for the necessary adjustments to be made, it shall request that consultations be opened, in accordance with the procedure described in Article 14, so that agreement may be reached on an equivalent adjustment of the corresponding quantitative limits.

2. Pending the outcome of the consultations referred to in paragraph 1, the Commission may ask the supplier country concerned to take the necessary precautionary steps to ensure that adjustments to the

quantitative limits agreed on following such consultations may be carried out for the year in which the request for consultations was lodged or for the following year, if the quantitative limit for the current year is exhausted, where there is clear evidence of circumvention.

3. If the Community and the supplier country fail to arrive at a satisfactory solution within the period stipulated in Article 14 and if the Commission notes that there is clear evidence of circumvention, it shall deduct from the quantitative limits an equivalent volume of products originating in the supplier country concerned, in accordance with the procedure laid down in Article 15.

4. In the case of the countries listed in Annexes XII, XII A and XII B this Article shall apply also to imports after 1 January 1982. This Article shall also apply to imports prior to that date where any consultations for the adjustment of quantitative limits which may have been opened with the supplier country concerned before the entry into force of this Regulation have not yet produced a mutually satisfactory solution.

7) Article 14, paragraph 2, shall be replaced by the following text:

2. The consultations referred to in Article 5 of this Regulation and those held with the countries listed in Annexes XII, XII A and XII B shall be governed by the following rules:

- the Commission shall notify the supplier country concerned of the request for consultations, together with a statement setting out the reasons and circumstances which, in the Commission's opinion, justify the submission of such a request,

- the Commission shall initiate consultations within 15 days at the latest of notification of the request, with a view to reaching agreement or a mutually acceptable conclusion within 15 days at the latest.

- 8) The annexes shall be replaced by the annexes to this regulation.

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

4. Paragraph 3 shall not apply to products originating in Egypt, Hong Kong, Thailand or Singapore.

5. Where different criteria for determining origin are fixed in respect of products falling within a single category and a single tariff heading, the certificate or declaration must include a description of the goods which is sufficiently detailed to allow assessment of the criterion on the basis of which the certificate was issued or the declaration made.

Article 2

The discovery of slight discrepancies between the entries made in the certificate of origin and those

Article 3

2. Products shipped before the date of the application of the decision shall remain subject to earlier classification practice, provided that the goods in question are entered for importation within 60 days of that date.

ANNEX X

referred to in Article 6 (5)

Article 1

Romania

1. Should a Member State find that one of the textile products in Annex I, originating in and coming from Romania, is imported into the Community at an abnormally low price, falling short of the normal competitive amount, so as to cause or threaten to cause serious harm to the Community producers of products which are similar or in direct competition, the Commission may request consultations with Romania.

2. Should agreement not be reached during the aforementioned consultations within a period of 30 days from the date on which consultations are requested, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the product in question.

3. In quite exceptional and grave circumstances, when imports into the Community of a Romanian textile product at abnormally low prices would be likely to cause damage which it would be difficult to repair, the parties will embark on emergency consultations which must be held within a maximum period of five working days from the day on which the Commission gives notification of its request for consultation.

If within this period of five working days the parties should not reach a mutually acceptable agreement making it possible to deal with the situation, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned to suspend the issuing of documents permitting the import of the product in question.

4. In order to determine whether the price of a textile product is abnormally low, falling short of the normal competitive amount, the price will be compared:

- with the prices of similar national products at a comparable stage in the marketing process on the market of the importing country,
- with the prices which are general for similar products sold under normal conditions by other exporting countries on the market of the importing country, and

- with the lowest prices applied by a third country to the same product in the three months preceding the request for consultation, and which have not led to the adoption of any measure by the Commission.

Article 2

Hungary and Bulgaria

1. Should a Member State note that one of the textile products in Annex I is imported from Hungary or Bulgaria into the Community at prices falling below the price range usual under conditions of normal competition, and therefore causes or threatens to cause serious harm to the Community producers of the same products, similar products or products in direct competition, the Commission may request consultations with Hungary or Bulgaria.

2. If during the aforementioned consultations agreement is not reached within a period of 30 days from the date of the Commission request, and if shipments of the product in question continue to be made at prices lower than the price range usual under conditions of normal competition and therefore cause or threaten to cause serious harm to the Community producers referred to in paragraph 1, the Commission may, while continuing consultations with a view to reaching a mutually acceptable solution, authorize, in accordance with the procedure provided for in Article 15, the Member State concerned to suspend imports of the shipments in question.

3. In critical situations, when imports of specific textile products at prices lower than the price range usual under conditions of normal competition threaten to cause damage which it would be difficult to repair, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the product in question. In that case, consultations will be embarked on without delay, and in any case within a period of five days from the date of the Commission's request, with a view to reaching a mutually acceptable solution.

4. For the purposes of applying the provisions of this Article and determining whether the price of a textile product is 'lower than the price range usual

under conditions of normal competition', these prices may be compared:

- with the prices of similar products at a comparable stage in the marketing process on the market of the importing country,
- with the prices which are general for such products sold under normal commercial conditions by other exporting countries on the market of the importing country, and
- with the lowest prices applied for such products sold under normal commercial conditions by any other exporting country during the three months preceding the request for consultation, and which have not led to the adoption of any measure by the Commission.

Article 3

Poland and Czechoslovakia

1. Should a Member State consider that one of the textile products listed in Annex I is being imported into the Community from Poland or Czechoslovakia at a price abnormally lower than the normal competitive amount, thus causing or threatening to cause serious harm to the Community producers of products which are similar or in direct competition, the Commission may request consultations with Poland or Czechoslovakia.

2. In order to determine whether the price of a textile product is abnormally lower than the normal competitive amount, the price may be compared:

- with the prices of similar national products at a comparable stage in the marketing process on the market of the importing country,

- with the prices which are general for similar products sold under normal conditions by other exporting countries on the market of the importing country, and

- with the lowest prices applied by a third country to the same product in the course of normal commercial transactions in the three months preceding the request for consultation, and which have not led to the adoption of any measure by the Community.

3. Should agreement not be reached during the consultations referred to in paragraph 1 above within a period of 30 days from the date on which consultations are requested by the Commission and pending a mutually satisfactory outcome of the consultations, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the products in question.

4. In quite exceptional and grave circumstances, when deliveries of products imported from Poland or Czechoslovakia are being effected in the Community at prices abnormally lower than the normal competitive level and would be likely to cause damage which it would be difficult to repair, the Commission may, in accordance with the procedure provided for in Article 15, authorize the Member State concerned temporarily to suspend imports of the product in question pending a solution to be agreed in the course of consultations. The said consultations will be embarked on without delay, and in any case within a period of five days from the date of the Commission's request.

Before suspension, Czechoslovakia is given 10 working days' notice in order to remedy the situation.

Article 1

Re-imports into the Community of textile products listed in column 1 of the table attached to this Annex and effected in accordance with the Regulations on economic outward processing in force in the Community shall not be subject to the quantitative limits referred to in Article 3 of this Regulation where they are subject to specific quantitative limits in column 3 of the table and have been re-imported into the Member State concerned, after processing in the corresponding third country listed in column 5 for each of the quantitative limits specified.

Article 2

Re-imports not covered by this Annex may be subject to specific quantitative limits in accordance with the procedure laid down in Article 15 of this Regulation, provided that the products concerned are subject to the quantitative limits laid down in Article 3 of this Regulation.

Article 3

1. Transfers between categories and advance use or carry-over of portions of specific quantitative limits from one year to another may be carried out in accordance with the procedure laid down in Article 15 of this Regulation.

2. Portions of any specific quantitative limits not used in one Member State may be reallocated to another Member State in accordance with the procedure laid down in Article 15 of this Regulation.

3. Member States which record a need for additional imports or which consider that their share is unlikely to be used in full shall inform the Commission thereof. They may ask that the specific quantitative limits be adjusted in accordance with the procedure laid down in Article 15.

4. The Commission shall inform the third country or countries concerned of any measures taken pursuant to the preceding paragraphs.

Article 4

Debiting against a specific quantitative limit as laid down in Article 1 shall be carried out by the competent authorities of the Member States at the time of issue of the prior authorizations provided for by the Regulations on economic outward processing in force in the Community. A specific quantitative limit shall be debited for the year in which the prior authorization is issued.

The certificate of origin provided for in Article 1 of Annex V to this Regulation shall be issued by the competent governmental authorities in the supplier country concerned, in accordance with the provisions of Annex V, for all products covered by this Annex. Failure to comply with this provision shall not entail the *ipso facto* rejection of the prior authorization, except where there is grave suspicion of fraudulent practice or serious irregularity and subject to the appropriate precautionary measures to be taken before the products are given clearance.

Article 6

The competent authorities of the Member States shall provide the Commission with the names and addresses of the Community authorities competent to issue both the prior authorizations referred to in Article 4 and the specimens of stamp impressions used by them.
