COMMISSION OF THE EUROPEAN COMMUNITIES

COM(75) 670 final.

Brussels, 22 December 1975

Proposal for

FIFTH COUNCIL DECISION

on the equivalence of field inspections carried out in third countries on seed-producing crops

Proposal for

FIFTH COUNCIL DECISION

on the equivalence of seed produced in third countries

Proposal for

THIRD COUNCIL DECISION

amending the second Decision 75/370/EEC on the equivalence of seed potatoes produced in third countries

(submitted by the Commission to the Council)

COM(75) 670 final.

Explanatory Memorandum

Council Directives 66/400/EEC, 66/401/EEC and 66/402/EEC of 14 June 1966 on the marketing of beet, fodder plant and cereal seed and Council Directive 69/208/EEC of 30 June 1969 on the marketing of seed of oil and fibre plants provide that seed of these species may only be marketed if it has been officially inspected and certified with respect to identity, varietal purity and quality. If the seed has been produced in third countries, it may only be marketed in the Community if the Council, acting on a proposal from the Commission, establishes the equivalence of the official tests carried out in individual third countries.

The Council has already made such equivalence decisions in its Decisions 72/292, 293/EEC, 73/86, 87/EEC, 74/348, 349/EEC and 75/407, 408/EEC relating to a large number of third countries. These Decisions expire on 30 June 1976.

Having regard to current multiplication contracts with commercial undertakings in third countries, it is essential to make in good time the Decisions which will be effective from 1 July 1976.

Taking into consideration the experience gained in past years from imports and EEC comparative tests and on the basis of further information obtained meanwhile in certain third countries, renewals of equivalence for the field inspection of seed growing crops in certain countries and for seed produced in these countries can be contemplated.

Since the Annexes of the implementing Decisions relating to the species subject to certification and the certification authorities are liable to change continually, it seems desirable to render technical and administrative adaptations of the Annexes subject to the procedure of the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry.

This procedure should also be introduced into the Second Council Decision 75/370/EEC for seed potatoes produced in third countries.

Draft

Fifth Council Decision of..... on the
equivalence of field inspections carried out in
third countries on seed-producing crops

(Communication by Mr. Lapierre)

Fifth Council Decision of.... on the equivalence of field inspections
carried out in third countries on seed-producing crops

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Directive No 66/400/EEC (1) of 14 June on the marketing of beet seed, as last amended by Directive No 75/444/EEC (2), and in particular Article 16 (1) (a) thereof;

Having regard to Council Directive No 66/401/EEC (3) of 14 June 1966, on the marketing of fodder plant seed, as last amended by Directive No 75/444/EEC, and in particular Article 16 (1) (a) thereof;

Having regard to Council Directive No 66/402/EEC (4) of 14 June 1966 on the marketing of cereal seed, as last amended by Directive No 75/444/EEC, and in particular Article 16 (1) (a) thereof;

Having regard to Council Directive No 69/208/EEC (5) of 30 June 1969 on the marketing of seed of oil and fibre plants, as last amended by Directive No 75/444/EEC, and in particular Article 15 (1) (a) thereof;

Having regard to the proposal from the Commission;

Whereas there are rules on seed control in Australia, Finland, Greece, Israel, Yugoslavia, Canada, New Zealand, Norway, Austria, Poland, Portugal, Romania, Sweden, Switzerland, Spain, South Africa, Czechoslovakia, Turkey, Hungary and the United States; whereas these rules provide for official field inspection to be carried out during the period of seed production;

(1) OJ No 125 of 11.7.1966, p. 2290/66

(2) OJ No L 196 of 26.7.1975, p. 6

(3) OJ No 125 of 11.7.1966, p. 2298/66

(4) OJ No 125 of 11.7.1966, p. 2309/66

(5) OJ No L 169 of 10.7.1969, p. 3

Whereas these rules and the manner in which they are applied have been reviewed and whereas this review has established that the prescribed field inspections satisfy the conditions laid down in Annex I to the abovementioned Directives ;

Whereas the Council Decision No 72/292/EEC (6), 73/86/EEC (7), 74/348/EEC (8) and 75/407/EEC (9), previously granting equivalence of field inspections in the above-mentioned countries expires on 30 June 1976 a new decision extending this period seems desirable.

Whereas this Decision does not preclude Community determinations being revoked or extension of the period of their validity being refused, when the conditions on which they are based are not or cease to be satisfied ; whereas to this end, further practical information on seed produced in the abovementioned countries should be obtained by growing and checking samples of such seed in comparative Community tests ;

Whereas it has become apparent that the technical and administrative provisions in the annex of the decision particularly with respect to the species subject to certification and of the certifying agencies, are often subject to changes ;

Whereas for the purpose of simplifying the methods which at present are used to modify the annex, it seems desirable that these changes should be referred to the procedure of the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry ;

HAS ADOPTED THIS DECISION :

-
- (6) OJ N° L 186 of 16/8/1972, p. 22
 - (7) OJ N° L 106 of 20/4/1973, p. 18
 - (8) OJ N° L 191 of 15/7/1974, p. 11
 - (9) OJ N° L 183 of 14/7/1975, p. 17

Article 1

It is hereby determined that, where the special conditions laid down in the Annex to this Decision are satisfied, field inspections of crops producing seed of the "certified seed" category carried out in the countries and by the authorities listed in the said Annex and in respect of the species specified therein satisfy the conditions laid down in Annex I to Directive N° 66/400/EEC, 66/402/EEC or 69/208/EEC.

Article 2

Technical and administrative amendments necessary to be made to the Annex of this decision shall be adopted according to the procedure laid down in article 21 of the Directives N° 66/400/EEC, 66/401/EEC and 66/402/EEC and in article 20 of the Directive N° 69/208/EEC.

Article 3

This Decision shall apply from 1 July 1976 to 30 June 1980.

Article 4

This Decision is addressed to the Member States.

Done at Brussels,

For the Council,

Special conditions

1. Field inspection shall be carried out in accordance with national rules for the application of the scheme for the varietal certification of seed moving in international trade of the Organization for Economic Cooperation and Development (OECD).
2. Field inspection shall be carried out in accordance with national rules for the varietal control of seed.
3. Field inspection shall be carried out by State authorities or by any legal person, whether governed by public or by private law acting under the responsibility of such authorities, provided that such person derives no private gain from the result of the inspection.
4. Harvested seed shall be packed in officially sealed packages which bear an official label giving the following information:
 - (a) authority responsible and country,
 - (b) species,
 - (c) variety,
 - (d) reference number of the basic seed and name of the Member State which certified the seed,
 - (e) reference number of the lot,
 - (f) declared net or gross weight,
 - (g) the words "non-certified seed".All information shall be given in at least one of the official languages of the European Communities.
5. An official notice shall give the following information:
 - area cultivated,
 - quantity of harvested seed,
 - an attestation that the crops from which the seed comes have satisfied an official field inspection.
6. Harvested seed shall be packed in an officially sealed package bearing the special label prescribed by the OECD for seed which has not been finally certified: this label shall give the following additional information:
 - reference number of the basic seed,
 - name of the Member State which certified the seed.

EUROPEAN COMMISSION

Directorate-General for Agriculture

VI/8/3

Brussels

**Fifth Council Decision of..... on the
equivalence of seed produced in third countries**

(Communication by Mr. Laminis)

Fifth Council Decision of..... on the equivalence of seed produced
in third countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic
Community;

Having regard to Council Directive No 66/400/EEC ⁽¹⁾ of 14 June 1966
on the marketing of beet seed, as last amended by Directive No 73/438/EEC ⁽²⁾,
and in particular Article 16 (1) (b) thereof;

Having regard to Council Directive No 66/401/EEC ⁽³⁾ of 14 June 1966
on the marketing of fodder plant seed, as last amended by Directive No
73/438/EEC, and in particular Article 16 (1) (b) thereof;

Having regard to Council Directive No 66/402/EEC ⁽⁴⁾ of 14 June 1966
on the marketing of cereal seed, as last amended by Directive No
73/438/EEC, and in particular Article 16 (1) (b) thereof;

Having regard to Council Directive No 69/208/EEC ⁽⁵⁾ of 30 June 1969
on the marketing of seed of oil and fibre plants, as last amended by
Directive No 73/438/EEC, and in particular Article 15 (1) (b) thereof;

Having regard to the proposal from the Commission;

Whereas there are rules on seed control in Australia, Finland, Greece,
Israel, Yugoslavie, Canada, New Zealand, Norway, Austria, Poland,
Portugal, Romania, Sweden, Switzerland, Spain, South Africa, Czecho -
slovakia, Turkey, Hungary and the United States.

-
- (1) OJ No 125 of 11.7.1966, p. 2290/66
 - (2) OJ No L 196 of 26.7.1975, p. 6
 - (3) OJ No L 125 of 11.7.1966, p. 2298/66
 - (4) OJ No 125 of 11.7..966, p. 2309/66
 - (5) OJ No L 169 of 10.7.1969, p. 3

Whereas a review of these rules and the manner in which they are applied has demonstrated that the conditions governing seed harvested and controlled in these countries afford the same assurances as regards the seed's characteristics, identity, examination, marking and control, as do the conditions applicable to seed harvested and controlled within the Community ;

Whereas the Council Decision N° 72/293/EEC (6), 73/87/EEC (7), 74/349/EEC (8) and 75/408/EEC (9) previously granting equivalence of seed produced in the abovementioned countries expires on 30 June 1976 a new decision extending this period seems desirable.

Whereas this Decision does not preclude Community determinations being revoked or extension of the period of their validity being refused, when the conditions on which they are based are not or cease to be satisfied ; whereas, to this end, further practical information on seed produced in the abovementioned countries should be obtained by growing and checking samples of such seed in comparative Community tests ;

Whereas it has become apparent that the technical and administrative provisions in the annex of the decision, particularly with respect to the species subject to certification and the certifying agencies, are often subject to changes ;

Whereas for the purpose of simplifying the methods which at present are used to modify the annex, it seems desirable that these changes should be referred to the procedure of the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry ;

HAS ADOPTED THIS DECISION :

-
- (6) OJ N° L 186 of 11/8/1972, p. 30
 - (7) OJ N° L 106 of 20/4/1973, p. 21
 - (8) OJ N° L 191 of 15/7/1974, p. 17
 - (9) OJ N° L 183 of 14/7/1975, p. 20

Article 1

It is hereby declared that, where the special conditions laid down in the Annex are satisfied, seed harvested in the countries and officially controlled by the authorities listed in the said Annex and belonging to the species and categories specified therein is equivalent to seed of the corresponding categories harvested within the Community and complying with Directive N° 66/400/EEC, 66/401/EEC, 66/402/EEC or 69/208/EEC.

Article 2

Technical and administrative amendments necessary to be made to the annex of this decision shall be adopted according to the procedure laid down in Article 21 of the Directives N° 66/400/EEC, 66/401/EEC and 66/402/EEC and in article 20 of the Directive N° 69/208/EEC.

Article 3

This Decision shall apply from 1 July 1976 to 30 June 1980.

Article 4

This Decision is addressed to the Member States.

SPECIAL CONDITIONS

1. Seed shall be officially certified and its containers officially sealed and marked in accordance with the scheme for the varietal certification of seed moving in international trade of the Organization for Economic Cooperation and Development (OECD). The quality of the seed shall meet the requirements of Community rules.
2. Seed shall be officially certified and its containers officially sealed and marked in accordance with national provisions. The quality of the seed shall meet the requirements of Community rules.
3. Field inspection shall be carried out by the authorities of the country which has been granted equivalence or by any legal person, whether governed by public or by private law of that country acting under the responsibility of such authorities, provided that such person derives no private gain from the result of the inspection.
4. Basic seed and, in the case of certified seed of the second and subsequent generations, the certified seed of the preceding generation or generations.
 - a) shall have been officially controlled or certified in a third country which has been granted equivalence in the same way for the same species or within the Community
 - b) shall have been officially certified within the Community.
5. The official label shall give the following additional information:
 - a) date of official sealing;
 - b) a statement that the seed complies with EEC rules and standards;
 - c) if 4 -b is applicable, a statement that the basic seed or, in the case of certified seed of the second and subsequent generations, the certified seed of the preceding generation or generations has been certified within the Community;
 - d) country of production;
 - e) declared net- or gross weight or declared number of pure seeds;
 - f) where weight is indicated and granulated pesticides, pelleting substances, or other solid additives are used, the nature of the additives and also the approximate ration between the weight of pure seed and the total weight.

This information may also appear on another official label which, in addition shall give the name of the authority and of the country.

The statement mentioned under (b), in so far as it relates to germination, may also be given in a notice, issued by the responsible authorities of a Member State, and attached to the package or label on importation into the Community, provided that these authorities have been informed by the third country responsible that the EEC standards are fulfilled. This provision only applies to seed produced in an overseas third country which applies analogous measures to seed from the Community.

6. The official label shall give the following additional information:

- a) date of official sealing;
- b) if 4-b is applicable, a statement that the basic seed has been certified within the Community;
- c) country of production;
- d) declared net or gross weight or declared number of clusters or pure seeds;
- e) where weight is indicated and granulated pesticides, pelleting substances or other solid additives are used, the nature of the additive and also the approximate ratio between the weight of clusters or pure seeds and the total weight.

This information may also appear on another official label which, in addition, shall give the name of the authority and of the country.

7. The official label shall give the following minimum information:

- a) certification authority and country;
- b) a statement that the seed complies with EEC rules and standards;
- c) reference number of the lot;
- d) species;
- e) variety or, in the case of hybrids, inbred line;
- f) category (basic seed or certified seed);
- g) country of production;
- h) declared net or gross weight or declared number of pure seeds;
- i) where weight is indicated and granulated pesticides, pelleting substances, or other solid additives are used, the nature of the additive and also the approximate ratio between the weight of pure seeds and the total weight;
- j) date of official sealing;
- k) in the case of hybrid varieties:

- the word "hybrid",

- in the case of seed of the category "certified seed" which has not been certified within the Community, a statement that the basic seed has been officially examined.

The colour of the label shall be:

- white for basic seed,

- blue for certified seed and certified seed of the first generation.

The statement mentioned under (b), in so far as it relates to germination, may also be given in a notice, issued by the responsible authorities of a Member State, and attached to the package or label on importation into the Community, provided that these authorities have been informed by the third country responsible that the EEC standards are fulfilled. This provision only applies to seed produced in an overseas country which applies analogous measures to seed from the Community.

8. Any chemical treatment of the seed shall be noted either on the official label or on a special label and on the container or inside it.
9. An official notice placed inside the package shall give at least the reference number of the lot, the species and the variety; in addition, in the case of beet seed it shall be stated, where appropriate, whether the seed is monogerm or precision seed.

This notice is not necessary if the minimum information is printed indelibly on the package.

10. All information required for official labels, official notices and packages shall be given in at least one of the official languages of the European Communities.
11. Seed shall be officially controlled and its packages officially sealed and marked in accordance with national provisions. The quality of the seed shall meet the requirements of Community rules.
12. The official label shall give the following minimum information?
 - a) control authority and country?
 - b) the words "commercial seeds (variety uncertified)";
 - c) a statement that the seed complies with EEC rules and standards;
 - d) reference number of the lot;
 - e) species and a statement that they are lupins rich in alkaloids;
 - f) region of production;
 - g) declared net or gross weight or declared number of pure seeds;
 - h) where weight is indicated and granulated pesticides, pelleting substances, or other solid additives are used, the nature of the additive and also the approximate ratio between the weight of pure seeds and the total weight,
 - i) date of official sealing.

The colour of the label shall be brown.

13. An official notice placed inside the package shall give at least the information provided for under point 12 (b), (d) and (e).

This notice is not required if the minimum information is indelibly printed on the package.

DRAFT

for third Council Decision of..... amending the
second Decision 75/370/EEC on the equivalence of
seed potatoes produced in third countries

... to ...

Third Council Decision of..... amending the second Decision 75/370/EEC on the equivalence of seed potatoes produced in third countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES ,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Directive No 66/403/EEC ⁽¹⁾ of 14 June 1966 on the marketing of seed potatoes, as last amended by Directive No 75/444/EEC ⁽²⁾ and in particular Article 15 (1) thereof;

Having regard to the proposal from the Commission;

Whereas the Council has declared by its second Decision No 75/370/EEC ⁽³⁾, that seed potatoes harvested and officially controlled in Austria, Poland and in Switzerland afford the same assurances as seed potatoes harvested and controlled within the Community;

Whereas it has become apparent that the technical and administrative provisions in the annex of the second decision in respect of the third countries therein listed are often subject to changes.

Whereas for the purpose of simplifying the methods which at present are used to modify the annex, it seems desirable that these changes should be referred to the procedure of the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry.

HAS ADOPTED THIS DECISION:

(1) OJ No 125 of 11.7.1966, p. 2320/66

(2) OJ No L 196 of 26.7.1975, p. 6

(3) OJ No L 164 of 27.6.1975, p. 43

Article 1

The second Council Decision 75/370/EEC of 24 June 1975, on the equivalence of seed potatoes produced in third countries, shall be amended as follows :

The following article shall be added to article 1 :

"Article 1 a

Technical and administrative amendments to be made to the annex of this Decision shall be adopted in accordance with the procedure laid down in article 19 of the Directive N° 66/403/EEC".

Article 2

This Decision shall apply until 30 June 1978.

Article 3

This Decision is addressed to the Member States.
