Supporting the goals and ideals of National Nurses Week,

Whereas, beginning in 1991, National Nurses Week has been celebrated annually from May 6, also known as “National Recognition Day for Nurses” through May 12, the birthday of Florence Nightingale, the founder of modern nursing;

Whereas the Future of Nursing reports of the Institute of Medicine and National Academy of Medicine have highlighted the need for the nursing profession to meet the call for leadership in a team-based delivery model;

Whereas, when nurse staffing levels increase, the risk of patient complications and lengthy hospital stays decrease, resulting in cost savings;

Whereas nurses are experienced researchers, and the work of nurses encompasses a wide scope of scientific inquiry, including clinical research, health systems and outcomes research, and nursing education research;

Whereas nurses provide care to all individuals across the United States;

Whereas nurses are well-positioned to provide leadership, increase access to nursing care throughout the United States, and improve health outcomes for all patients;
